

A background image showing a group of business professionals in a meeting. A man in a dark suit and tie is looking towards the camera, while a woman and another man are partially visible. They are seated around a table with a laptop, a tablet, and some documents. An orange semi-transparent rectangle is overlaid on the image, containing the text.

**Leading Manufacturer
and Systems Integrator of
Enterprise Mobility, Barcode
and RFID Solutions**

Company Overview

Label and Tag Solutions

Whether your specifications call for temperature, chemical, smudge, or scratch resistant labels, Lowry Solutions has the expertise, materials, adhesives and inks to handle even the most demanding label requirements.

With over 20 years of experience helping customers solve their label and tag needs, Lowry offers a full range of tag and label solutions, including:

- Stock labels
- Custom blank labels and tags
- RFID labels and tags
- Flexographic printed labels and tags
- Imprinted barcode and variable data labels
- Specialty/library barcode labels
- Label and ribbon kits
- Compliance labels, including AIAG, GHS and more

Software Solutions

Lowry offers a variety of software applications designed to help your business improve efficiency and increase productivity. Our software solutions team is adept at identifying bottle necks, understanding pain points and refining business processes to help your business grow.

- Data collection software
- Packaging execution systems
- Asset tracking software
- Barcode labeling software
- RFID software
- Mobile device management

Hardware

As a leading nationwide provider of barcode, RFID and mobility equipment, Lowry sells and services:

- Barcode printers and scanners
- Mobile computers and portable printers
- Ruggedized tablets
- RFID readers and printers
- Wireless networking

Professional Services

For over four decades, thousands of companies have turned to our industry-leading professionals for services that deliver a true business advantage. From concept design and testing to installation, training and ongoing technical support, Lowry Solutions is with you every step of the way.

RFID Services

Lowry's innovative RFID Center is a fully equipped lab environment that provides the capability to analyze and compare radio frequency identification (RFID) hardware and software from leading technology providers. Lowry provides a suite of RFID services to ensure the success of your project:

- Tag selection, orientation and placement
- RFID equipment selection and configuration
- RFID site survey
- Radio frequency analysis
- RFID system implementation

Wireless Networking & Integration

If you are adding devices to your network or simply adding applications to your devices, Lowry's wireless networking and integration services make sure your wireless network maintains peak performance:

- Site survey
- System pre-staging
- Site preparation
- System training
- System installation

Software Development

At Lowry, we deliver a viable solution for every customer because our process, the Agile Development process, allows for change and harnesses the results of any change. This process includes continuous customer involvement and review and allows us to meet evolving requirements without compromising solution quality, cost or completion. We make sure the solution we are developing is the solution your business really needs.

Mobility Services

Lowry empowers customers to improve communication, gain real-time access to critical business information, and increase productivity within their organization through the use of mobile solutions, including:

- Mobile application development
- Wireless activation
- Mobile device staging
- Wireless provisioning service
- Mobile device management
- Customer training and project management

Managed Printer Services

The barcode and RFID printers provided by Lowry are placed in mission critical applications. Lowry's managed printer service help keep these printers operational wherever and whenever a problem may arise. By using proactive printer monitoring, Lowry can even help to reduce printer down time. Some of the features of managed printer services are:

- Recognize when labels and ribbons need replenishment
- Identify the number of labels a printer has printed for a given period of time
- Determine when a printer should have preventative maintenance performed
- Remotely determine the operational status of a printer
- Perform printer diagnostics remotely

About Lowry Solutions, Inc.

Since 1974, Lowry Solutions, Inc. (formerly Lowry Computer Products) has helped its customers make informed business decisions and become more competitive in the marketplace. The company provides the most innovative barcode, RFID, biometrics, enterprise mobility, asset management and inventory control solutions that reduce operational costs, heighten productivity, and improve process efficiency in an array of vertical markets. Its enterprise mobility solutions empower the mobile worker through real-time communication and data access solutions. See more at www.lowrysolutions.com.
