

Performance when it matters

Increased Uptime

High Speed Ribbons

ITW Thermal Films' ribbons are designed for high volume flexible packaging applications where optimum printing performance at high speeds is required. These ribbons feature our proprietary anti-static coating and high sensitivity inks enabling you to maintain and sustain the life of your printheads, use less energy and print at faster speeds.

Longer Length Rolls

Excellent Print Quality

Less Changeover

Decreased Downtime

Serving all packaging industries

At Lowry Solutions, we offer ITW Thermal Films products specially formulated for the flexible packaging industry. These products work on all leading printer models including VideoJet®, Markem-Imaje, Bell-Mark, and others. Uptime, food safety, print quality, and flexibility are what you can expect from ITW Thermal Films.

and More...

Food Safe

FDA Compliant for Direct
Food Contact

Our P110 (black) and P110W (white) near edge wax/resin formulations are uniquely suited for marking and coding in the food packaging industry. Both products have passed the FDA (US) and ISEGA (Europe) requirements for **direct food** contact.

Bag-in-a-bag Applications

Food Safety

Print Quality

Bold Print and Durable Images

On-the-package print quality is essential when applying date codes and other information. Not only do our products print bold images that look good, they endure challenging print environments and handling procedures.

Superb Smudge & Scratch Resistance

Excellent Ink Adhesion

Superior Image Quality

Hot/Cold Printing Environments

Bold Images

Exceptional Image Durability
