# Does Your Business Need a New Packaging Execution System?

Are you looking for a way to better automate your packaging and labeling? Use our Packaging Execution System (PES) scorecard to perform a self-assessment, and identify if your company could benefit from implementing a PES.

01.	Do you manually enter label and coding information?	YES	NO
02.	Have you incurred any fines or chargebacks from customers as a result of labeling and/or coding errors?	YES	NO
03.	Do you know how much rework is costing your organization due to coding and labeling errors?	YES	NO
04.	Have you encountered any regulatory or customer requirements for product marking and labeling?	YES	NO
05.	Are you required to go through an audit process which would benefit from more data?	YES	NO
06.	Does your current system offer adequate audit trails?	YES	NO
07.	Is your organization struggling to manage multiple label formats and systems due to different printer makes and types (desktop, left hand or right hand printer applicators)?	YES	NO
08.	Are you experiencing reliability issues with your current printers or system?	YES	NO
09.	Do you require complex label logic such as formats that are product, customer and schedule specific?	YES	NO
10.	Do you need to print different label formats on two sides of a case using a dual tamp or corner wrap printer?	YES	NO
11.	Does your company need catch weight, fixed weight, and out of range logic with configurable events for variation?	YES	NO
12.	Do you need serialization and aggregation/association logic?	YES	NO
13.	Are you required to verify product counts?	YES	NO
14.	Do you require the ability to capture lot tracking data?	YES	NO
15.	Do you need to verify the quality of the barcodes with automated controls?	YES	NO
16.	Is management asking for the ability to communicate data (importing and exporting) with one or more external systems?	YES	NO
17.	Do you require validated labeling and coding software that is 21 CFR PT 11 compliant?	YES	NO
18.	Do you need the ability to quickly produce reliable reporting?	YES	NO
19.	Would you benefit from real time, centralized printer feedback, status reports and email notifications of printer or device errors?	YES	NO
20.	Do you need to tie your printers, coders, scanners, scales and PLCs together in one configurable, yet easy to implement and train, system?	YES	NO

## PES Self-assessment scoring:

If you answered yes to any of these questions, the Matrix packaging execution system could benefit your company. The more questions you answered yes to, the more likely you are to realize a rapid return on investment, and we highly recommend a consultation to discuss your needs.
